An alternative approach to Pre-Algebra, Algebra 1, or Algebra 2! The reason that we named our program "Algebra: A Complete Course," is that we believe the best way to learn Algebra is to start at the beginning and end at the end! In this program you will find a complete study of the essential material covered in a traditional Algebra 1 and Algebra 2 course.

Note that this is kinda outdated now. In 5.1.0 onward, "npm install" does not read from the package-lock.json file at all. It just installs from package.json like it used to. To make use of the package-lock.json file, you have to use the new "npm ci" command, which will install the exact versions listed in package-lock.json instead of the version-ranges given in package.json.

npm - "package-lock.json" role - Stack Overflow

Geometric algebra is a very convenient representational and computational system for geometry. We firmly believe that it is going to be the way computer science deals with geometrical issues.
