Black people is a skin color-based classification which is used for people of dark complexion. In certain countries, often in socially based systems of racial classification or of ethnicity, it is used to describe persons who are perceived to be dark-skinned compared to other populations. Depending on the usage, it is mostly used for the people of Sub-Saharan Africa and the indigenous peoples ...

†DONALD M. LANCE. University of Missouri-Columbia . Why do some people say Missouri-ee and others say Missouri-uh? Which one is "correct"? The spellings in early documents and comments made in print since the late 1600s indicate the existence of considerable variation in the pronunciations of all three vowels and the medial consonant in the word Missouri.

THE PRONUNCIATION OF MISSOURI:

Early Modern Homo sapiens. All people today are classified as Homo sapiens. Our species of humans first began to evolve nearly 200,000 years ago in association with technologies not unlike those of the early Neandertals. It is now clear that early Homo sapiens, or modern humans, did not come after the Neandertals but were their contemporaries.

By the mid 1850s through the 1870s, ophthalmologists were producing illustrations and atlases of the retina (including macula) of the eye, yet none of the images depicted macular degeneration. Today, macular degeneration is the most commonly encountered retinal condition, affecting nearly one in three people over the age of 75.
