1.If I have all the four species/samples with me i.e. dsDNA, ssDNA, dsRNA and ssRNA, how can I identify and distinguish one from the other? (using spectrophotometer and running them on gel)

### **dsDNA, ssDNA, dsRNA and ssRNA - ResearchGate**

Bad Western blots. It happens! Use our Western blot troubleshooting guide to help you sort it out so that your next blot is your best blot.

### **What went wrong? A Western Blot Troubleshooting Guide**

I have some confusion about the amount of sample normally required to load on gel during Western blot.

### **Amount of sample load on gel during Western Blot?**

Serum protein electrophoresis (SPEP) is an easy, inexpensive method of separating proteins based on their net charge, size, and shape. The 2 major types of protein present in the serum are albumin and the globulin proteins. Albumin is the major protein component of serum and represents the largest peak that lies closest to the positive electrode. [] ...

Mission of the Core: The objective of the Analytical Instrumentation Core is to provide support/training to investigators through cutting-edge analytical instruments and services to facilitate research and education in the Department of Medicine, Boston University School of Medicine as well as Boston Medical Center.

### **Analytical Instrumentation Core » Boston University**

Which of the following is an example of biotechnology ? a.) a petroleum based lubricant used in farming machinery b.) a driverless, solar powered automobile c.) a robotic probe on Mars that can detect water d.) a mechanical implant that delivers medicine

### **Which of the following is an example of biotechnology ? a ...**

Before applying the corkscrew, Lucas discovers a bit of mold on the cork of a bottle of Pinot Noir. Lucas should A. ignore the mold and uncork the wine. B. wipe off the mold with a clean napkin.

### **Before applying the corkscrew, Lucas discovers a bit of ...**

Pathtech supplies, supports and services a range of science and forensic products and equipment

and drug and alcohol detection devices.

### **Pathtech - Science, Drug Testing, Forensic products**

The majority of laboratory tests in use today are commercial lab tests, those that are manufactured, marketed, and sold in volume as kits to multiple laboratories and other healthcare facilities. In this article, you can learn how the U.S. Food and Drug Administration (FDA) regulates the development and marketing of the commercial tests used in medical care.
