National Geographic stories take you on a journey that's always enlightening, often surprising, and unfailingly fascinating.

### **National Geographic Magazine**

Our motivation. Oceans cover over 70% of the earth's surface, yet 95% of its seafloors are unknown. Unlike studies of the earth's atmosphere and land surfaces using e.g. satellite imaging, changes to our seafloors remain largely undocumented, and even if some data is available, this is often of very low quality.

A recent article I read titled "What are the harmful effects of Noise Pollution?" by Bhishm Khanna makes some important observations about noise pollution, viz.

### **What are the harmful effects of noise pollution?**

You may be able to find out how to stop breakouts by doing some detective work and face mapping. Argh, those nasty breakouts. You scrub and you wash and you tone and you moisturize, and still they show up just when you least need them, like right before a big interview, presentation, or meeting with your new in-laws.

### **Face Mapping: What Your Pimples are Trying to Tell You**

Data Requests. Consultants working under contract for the Municipality of Chatham-Kent can request GIS data needed for their work. The request must identify the project, project area and contract number for which the information is required; identify the municipality's project manager, the consultants project manager and list, in detail, all of the data sets required.

The microplastics sampling region and methods from the sea surface microlayer (SML) have been published elsewhere (Song et al., 2014) in detail. Water samples were collected near- and offshore of Geoje Island, which receives riverine discharge from the nearby Nakdong River, South Korea (.). The SML water samples were collected at 10 stations in May and July, 2012 (Song et al., 2014).

Background. Fossil fuel combustion by-products, including particulate matter (PM 2.5), polycyclic aromatic hydrocarbons (PAH), nitrogen dioxide (NO<sub>2</sub>) and carbon dioxide (CO<sub>2</sub>), are a significant threat to children's health and equality. Various policies to reduce emissions have been implemented to reduce air pollution and mitigate climate change, with sizeable estimated health and economic ...

PETase Exhibits a Canonical  $\alpha/\beta$ -Hydrolase Structure with an Open Active-Site Cleft. The high-resolution X-ray crystal structure of the *I. sakaiensis* PETase was solved employing a newly developed synchrotron beamline capable of long-wavelength X-ray crystallography (). Using single-wavelength anomalous dispersion, phases were obtained from the native sulfur atoms present in the protein.

Technical Summary. Slough, like many urban areas in the UK, experiences elevated levels of air pollution which have a measurable impact on the health of the local population.

### **Low Emission Strategy 2018-2025 - Slough Borough Council**

Environmental Awareness - Naturalist Intelligence Environment is the area in which we live and share. The thin layer of air that surrounds our planet that supports life. Humans are the only kind of life that we know of that exists in our universe. If we did not have our environment we could not exist.

### **Environmental Awareness - Naturalist Intelligence**

Richard Denison, Ph.D., is a Lead Senior Scientist. In contrast to the Environmental Protection Agency's (EPA) asserted clean bill of health for Pigment Violet 29 (PV29) in its draft risk evaluation, authorities under the European Union's REACH program have formally declared the chemical to be a suspected persistent, bioaccumulative and toxic (PBT) substance and a suspected very persistent ...
