Anthropoid coffin of Paduamen, with inner board and lid. In the Third Intermediate Period, coffins continued to change, though there was little visible impact from the early years of Libyan rule in Egypt. Even the yellow type of coffin persisted in Thebes until the reign of Osorkon I. They often were made with a foot pedestal so that the mummy could be placed vertically (though these were not ...

If the typical Egyptian stela looks suspiciously like a traditional tombstone, the reason is because traditional tombstones are a modern rendition of these ancient markers. Stela (pl. stelae) is a Latin word derived from the Greek stele, which means pillar or vertical tablet. In English, the usual ...

Post-transition metals are a set of metallic elements in the periodic table located between the transition metals to their left, and the metalloids to their right. Depending on where these adjacent groups are judged to begin and end, there are at least five competing proposals for which elements to include: the three most common contain six, ten and thirteen elements, respectively (see image).

The g factor (also known as general intelligence, general mental ability or general intelligence factor) is a construct developed in psychometric investigations of cognitive abilities and human intelligence. It is a variable that summarizes positive correlations among different cognitive tasks, reflecting the fact that an individual's performance on one type of cognitive task tends to be ...

Colonial American beverages Hot, non-alcoholic Coffee, tea and chocolate were popular non-alcoholic hot beverages during American Colonial times. These imports were expensive, but not beyond the reach of the average person. Folks too poor to afford the real thing brewed hot beverages from herbs, flowers, bark, roots, and woody stems.

2.2.. Qualitative changes accompanying the development of expertiseOver three decades of research in cognitive science show that there are qualitative changes in both process and knowledge as skill develops from a novice to an intermediate to an expert level (e.g., Anderson, 1987, Ericsson & Charness, 1994, Glaser & Chi, 1988, Patel & Groen, 1991, VanLehn, 1989).
