Online homework and grading tools for instructors and students that reinforce student learning through practice and instant feedback.

### **WebAssign**

We're now posting original research! Yes, as of late November we are hosting our own original study titled An Examination of the Effect of Prior Experience, Age, and Gender in Non-Food Blending Predictions. Though this title sounds pretty scientific, it just refers to an experiment I did with putting rubber balls in a blender to see...

The flipped classroom is not an online course. It is a way to engage students and make them more active in the learning process. Students watch a short video lecture for homework (click on the video below for an example) and take notes and complete practice examples. In the classroom these problems are evaluated by the students and teacher to address difficulties and misconceptions.
