### **AP Biology — bozemanscience**

Why a Scientific Format? The scientific format may seem confusing for the beginning science writer due to its rigid structure which is so different from writing in the humanities. One reason for using this format is that it is a means of efficiently communicating scientific findings to the broad community of scientists in a uniform manner.

Introduction. When most people get a small cut on their skin, it bleeds for a little while and then it stops bleeding. The entire process by which the bleeding stops is called hemostasis. Hemostasis is important because losing too much blood can be dangerous, and the bleeding needs to stop in order for the wound to heal. An essential part of hemostasis is coagulation of the blood.
