Figure: BER plot 2x2 MIMO Rayleigh channel with Maximum Likelihood equalisation. Summary. 1. The results for 2x2 MIMO with Maximum Likelihood (ML) equalization helped us to achieve a performance closely matching the 1 transmit 2 receive antenna Maximal Ratio Combining (MRC) case.. 2. If we use a higher order constellation like 64QAM, then computing Maximum Likelihood equalization might ...

just a FYI, those "nonsensical" characters are "escape sequences" developed by DEC and others back in the days when mainframe computers were accessed by terminals over phone lines. ^[is ESC (escape), ^[[is escape-[or CSI (control sequence initiator, IIRC) and CSI-A is the sequence for "up". and when you enable ncurses, using the answer below, those sequences are interpreted rather than ...

Biography. Norbert Stock has received his Ph.D. degree in chemistry with Prof. Schnick in 1998 at the University of Bayreuth and has spent the next 15 months as a postdoc in the groups of Prof. Ferey, Prof. Cheetham, and Prof. Stucky at the University of Versailles and University of California at Santa Barbara.

Synthesis of Metal-Organic Frameworks (MOFs): Routes to ...

A nanowire is a nanostructure, with the diameter of the order of a nanometer (10⁻⁹ meters). It can also be defined as the ratio of the length to width being greater than 1000. Alternatively, nanowires can be defined as structures that have a thickness or diameter constrained to tens of nanometers or less and an unconstrained length. At these scales, quantum mechanical effects are important ...

Compressive Sensing Resources

"The Signal Path dot com" has been established by a few of us as a part-time project. Our goal is to help new students and hobbyists familiarize themselves with testing equipment, testing procedures and circuit design.

About | The Signal Path

Hardware aliasing occurs when the same logical address can access different physical memory locations. This is a problem for software on some embedded systems and more generally when hardware becomes faulty in irretrievable locations, such as on a Mars Lander.
